

# Long - Term Freezer

phasetwo's LT21 provides farm tanks with the latest technology. When the lid is removed, it is stored in a specific position so the operator can use both hands to quickly access the product in the freezer. With the canister locating mechanism in the bottom of the unit, numbered location slots on the neck ring and color coded canister handles the product location can easily be identified. Our premium multi-layer insulation and other materials, together with the latest vacuum technology systems provides the leading industry performance. Engineering utilized finite element analysis, with specific testing to create durable cryogenic farm tanks suitable for today's requirements.

## FEATURES

- **New one-piece lockable lid design.**
- **Premium materials provide industry leading LN2 performance**
- **Location to store removed Neckplug for faster access to the product.**
- **Ergonomic cast handles.**
- **Numbered canister locations and color-coded handles for easy product identification.design.**
