

NiloCloud

A scalable, secure, and seamless cloud solutions

NiloCloud

Designed to ease data logging and storage, the NiloCloud offers a unique insight in your operations at all levels. From service departments scheduling maintenance and calibration, creating statistics, and engaging in a meaningful dialogue with the customers, to clinics getting overview of production performance and contract holders being empowered to perform strategic decision making. All in your time and where you decide to do it. Sharing and engaging with colleagues over time and geography the NiloCloud is value creation beyond expectation and perhaps desire.

Functions & Technology

Reduce your workload

Automatic collection and storing of data for purposes of quality control and assurance, certification, audit, and long-term performance monitoring provides flexibility in prioritising your tasks.

Secure your data

All data collected from every piece of equipment connected to a NiloChecker is securely stored in the NiloCloud providing complete traceability and documentation.

Specifications

NiloCloud

Requirements: LAN - WiFi - GSM-network
Computer requirements (minimum): Intel® i3, 4 Gb RAM
Cloud Storage Capacity: Unlimited one year storage
Export format: *.csv

UPS for NiloRouter

Input Voltage 9-30 VDC
Output Voltage (battery mode) 12 VDC
Max Output (W/A) 22W/1,8 Ampere
Battery Capacity 2600mAh / 17Wh
Operating Time 1,5 - 4 hours

NiloRouter

Dimensions (w/o antennas) (114.5 x 93.6 x 32) mm
Weight 360 g
Interface Ethernet WiFi
Networking Interface (2) GbE RJ45 ports, LTE Category 4 radio WiFi 4.
Max Network Speed 150/50 Mbps (Down/Up)
WiFi Standard 802.11 b/g/n, WiFi 2.4GHz
Ambient operating temperature -40 °C - 70 °C
Ambient operating humidity 5% to 95% noncondensing
Mounting DIN rail/wall/pole mount (Included)

Ordering info

Part no: 500s001 - NiloCloud Quarterly License
Part no: 500s002 - Text service for NiloCloud
Part no: 500s003 - NiloRouter Mobile Industrial Router
Part no: 500s004 - UPS for NiloRouter

Workstation

Monitor, analyse and collaborate. From your workstation you can monitor equipment performance in real time and get notified, when set limits are crossed or discrete procedural steps have finished. You can analyse data from different sources and compare performance, in your own time and from everywhere. You can collaborate with colleagues and peers long-distance across continents and time-zones.

Data Collection

The NiloChecker collects data directly from the source in your laboratory. This automation frees up time for you to focus on your artisan lab work.

Consolidated data allows you to check all parameters from all connected equipment simultaneously from one display.
